# REPORT

OF THE

## IRISH LAND COMMISSIONERS

FOR

THE PERIOD FROM THE 1st OF APRIL, 1898, TO THE 31st OF  
MARCH, 1899.

TO HIS EXCELLENCY GEORGE HENRY EARL CADOGAN, K.G.,  
LORD LIEUTENANT-GENERAL AND GENERAL GOVERNOR OF IRELAND.

APPENDIX  
TABLE  
No.

We, the Irish Land Commissioners, beg to submit to your Excellency this Report of our proceedings during the period from the 1st April, 1898, to the 31st March 1899.

### JUDICIAL RENTS.

During the year covered by this Report, seven Sub-Commissions were at work throughout the country in the disposal of applications to fix fair rents. Each Sub-Commission consisted of five wings, presided over by a Legal Assistant Commissioner.

The number of Originating Notices to fix Fair Rents disposed of, during the period stated, by the Commissioners as a Court of first instance, principally on consent, was 1,358; by the Sub-Commissioners, 14,440; and by the Civil Bill Courts, as appears by returns furnished by the Clerks of the Peace, 1,262, as follows:—

*For a First Statutory Term.*—By the Commissioners, 176; by the Sub-Commissioners, 4,475; by the Civil Bill Courts, 427.

*For a Second Statutory Term.*—By the Commissioners, 1,182; by the Sub-Commissioners, 9,965; and by the Civil Bill Courts, 775.

Thus, during the year, the entire number of Fair Rent Notices notified as having been disposed of was 17,000.

The entire number of such applications disposed of both by Land Commission and Civil Bill Courts from the date of the passing of the Land Law (Ireland) Act, 1881, to the 31st March, 1899, was as follows. For a first statutory term, 254,193, and for a second statutory term, 25,361.

The number of Fair Rent Notices awaiting hearing by the Land Commission on the 1st of April, 1898, was, for a first statutory term, 7,261, and for a second statutory term, 19,382:—Total, 26,643; and our Records showed an arrear—of undisposed of cases in the Civil Bill Courts, of 4,410 for a first statutory term, and 1,058 cases for a second statutory term:—Total, 5,468. Total for Land Commission and Civil Bill Courts, 32,111.

18,010 direct applications were made to the Land Commission to fix Fair Rents since the 1st April, 1898, of which 3,685 were for a first statutory term, and 14,375 were for a second statutory term. In the same period 2,701 applications were made to the Civil Bill Courts, of which 1,188 were transferred to the Land Commission. Of the applications so made there were 663 first statutory term applications, of which 218 cases were transferred to the Land Commission in the year, and 2,088 applications were made for a second statutory term, of which 970 were similarly transferred. Thus, during the year, 20,711 applications to fix Fair Rents were made to the Land Commission and the Civil Bill Courts.

APPENDIX TABLE No.	Number of cases awaiting hearing.	The number of such notices awaiting hearing on the 31st March, 1899, was:—
		By the Land Commission—
		For a first statutory term, . . . . . 6,463
		For a second " . . . . . 23,840
		Total, . . . . . 30,303
		By the Civil Bill Courts—
		For a first statutory term (including apparent acres brought forward from previous years), . . . . . 4,428
		For a second statutory term, . . . . . 1,361
		Total, . . . . . 5,789
1, 2	Rents fixed on Valuers' reports.	Judicial rents have been fixed during the year by us on the reports of Court Valuers in 31 cases for a first statutory term, making a total of 1,317 of such cases in which Judicial rents were so fixed up to the 31st of March, 1899, and judicial rents were similarly fixed by us in 73 cases for a second statutory term, making a total of 122 of such cases for a second statutory term up to the 31st of March, 1899.
11, 12		These figures include 2 cases for a first statutory term and 8 cases for a second statutory term where the proceedings to fix rents on the reports of Court Valuers were taken under our Provisional Rules of 28th June, 1898, which were subsequently issued as final Rules on the 9th November following.
	Agreements Sec. 8 of Act of 1881.	Originating agreements and declarations for a first statutory term have during the year been lodged under the provisions of the 8th Section of the Land Law (Ireland) Act, 1881, in 4,505 cases, of which 4,497 were lodged in the Land Commission, and 8 were lodged in the Civil Bill Courts.
25, 26		The total number of such agreements to fix fair rents for a first statutory term lodged, since the passing of the Act of 1881, up to the 31st March, 1899, was 133,496.
26, 27		During the year 9,384 originating agreements and declarations for a second statutory term were lodged, of which 9,359 were lodged in the Land Commission and 25 in the Civil Bill Courts.
27, 28		The total number of such agreements for a second statutory term lodged to 31st March, 1899, was 15,133.
	Agreements Sec. 17, Act of 1896.	During the year 1,484 agreements between landlords and tenants under the 17th section of the Land Law (Ireland) Act, 1896, were lodged in the Land Commission, making a total, with those lodged previously, of 2,677.
19, 21	True value of tenancy.	In the Appendix we give particulars of the results of decisions during the year in applications to the Land Commission and Civil Bill Courts respectively to fix the True Value of Tenancies pursuant to the provisions of Section 1 (3) of the Land Law (Ireland) Act, 1881, and also of decisions by us during the same period in such cases on Appeal.
61, 62	Judicial tenancies.	The total number of judicial tenancies executed since 1881 has been 151, and the number of fixed tenancies sanctioned 42.
62, 70	Fixed tenancies.	In one case during the year proceedings were taken under the 40th Section of the Land Law (Ireland) Act of 1881, to nominate arbitrators to fix the amount of the Judicial Rent. Since 1881 judicial rents have been fixed by this method in only 33 cases.
22	Arbitration.	
26, 40		During the year the number of leaseholders who applied under the provisions of the Land Law (Ireland) Act, 1887, to the Land Commission, was 219, and to the Civil Bill Courts 33; 43 applications were also made to the latter Courts during the same period to fix judicial rents in cases where judgments were pending, pursuant to the provisions of sec. 6 of the Act referred to.
1, 10	Leaseholders.	
10		The total number of fair rent applications from leaseholders and grantors who have applied under the provisions of the Act of 1887, and under the Redemption of Rent (Ireland) Act, 1891, up to the 31st March, 1899, in 35,335, and of these applications 34,665, have been disposed of.
2, 13		
71	Total effect of Fair Rent and other Land Law Acts.	The entire number of rents fixed under the Land Law Acts by all the methods enumerated to the 31st March, 1899, for a first statutory term, was 322,705 (excluding judicial tenancies and fixed tenancies). The total rental dealt with was £6,638,571, and the aggregate judicial rent fixed in respect thereof was £5,346,298, the result being an average reduction of 20·9 per cent. over the entire country. The number of such cases

struck out, withdrawn, or dismissed, was 65,022. The total number of such cases disposed of during the period from August, 1881, to 31st March, 1899, was therefore 157,747.

The entire number of rents fixed to the 31st March, 1899, for a second statutory term was 35,346. The total rental in these cases for the first statutory term was £601,647, and the aggregate judicial rent fixed in respect of the same for a second statutory term was £464,680, the result being an average reduction of 22·7 per cent. The number of such cases struck out, withdrawn, or dismissed, was 5,448. The greater portion of these cases were struck out in the office, the application to fix the rent for a second statutory term having been prematurely made.

## APPEALS.

2,218 appeals from the Civil Bill Courts and applications for re-hearings from the decisions of the Sub-Commissioners were heard by us, during the period stated, at 16 sittings held in Dublin and 18 in the country. Sittings were also held in Dublin for the disposal of motions and other court business.

Number of  
Appeals  
disposed of. 22. 27

991 appeals were withdrawn, making a total of 3,209 of such applications disposed of during the year under review.

During the same period 5,954 appeals were lodged.

The total number of appeals disposed of since the passing of the Act in 1881 to the 31st March, 1899, was 51,237.

22. 28 26. 28

The total number of appeals lodged or reinstated was 59,532.

The total number pending on the 1st April, 1898, was 5,550, and on the 31st March, 1899, it was 8,295.

Appeals  
pending.

## LABOURERS (IRELAND) ACTS.

Since our last Report orders were sealed fixing rents under these Acts in 126 cases of applications from Boards of Guardians; 85 orders fixing rents were made by one of the Commissioners sitting in chamber in Dublin. The total number of such rents fixed up to 31st March, 1899, was 3,909.

Rents fixed<sup>20</sup>  
under  
Labourers  
Acts. 31

In the Appendix particulars are given by counties of the number of such applications received and disposed of, and the average rent payable in respect of these cottage allotments.

## PURCHASE OF LAND ACTS.

### PROCEEDINGS UNDER ACTS OF 1885 AND 1886.

As stated in last year's Report, 29,636 applications have been received under these Acts, but after consolidating cases where several applications, received from the same applicant have been dealt with as one, the number is 29,178, and the amount applied for £11,452,028. Of these, 3,811 applications for £1,459,426 have been withdrawn or rejected for reasons similar to those explained in former reports; the amount so refused during the year was £176.

Loans  
applied for. 22

We provisionally sanctioned during the year 1 application for £175, making the total sanctioned up to 31st March, 1899, 25,367 for £9,993,602, after deducting cases provisionally sanctioned in former years, but in which the sanctions have been rescinded since 1st April, 1898, owing to the inability of the parties to proceed with the sales.

Loans pro-  
visionally  
sanctioned. 24

All the applications for loans under these Acts have therefore been ruled on since August, 1885.

Of the total amount, £9,993,602, so provisionally sanctioned, we have issued 25,366 loans to the amount of £9,992,417 in respect of sales for £10,162,775, the amount issued during the period just closed being £173 for 1 loan. Proceedings are pending for the issue of the sum of £125—being the difference between the amount sanctioned and the amount paid.

Total Loans  
issued. 26

As stated in last year's Report, the total amount issued includes £531,239 advanced to 2,928 tenants upon 161 estates purchased by us in the Lan<sup>d</sup> Judge's Court.

Purchase  
of Estates. 27

## Of the 25,366 Loans issued since 1885—

APPROXIMATE TABLE No.	Loans issued to	2,344 were for sums not exceeding	£50, the amount issued being	£78,496

		89 " " "	£2,000 " "	£1,379,321
		61 " " "	£3,000 " "	£315,183
		61 " " "	£4,000 " "	£280,690
		25,366	Total for period to 31st March, 1899,	£3,992,477

Loans issued to Provinces. Of the 25,366 Loans issued, amounting to £9,992,477, 12,954, to the amount of £3,749,421, were for Ulster, 5,304, amount £3,223,056, were for Munster, 4,220, amount £2,358,020, were for Leinster, and 2,988, amount £662,980, were for Connaught.

Part payment of purchase money. In 393 of these cases the purchase money in excess of the advances was provided by cash payments amounting to £131,461, and by mortgages to the amount of £38,397. In 143 cases the tenants lodged the Guarantee Deposits, the amount so lodged being £32,648.

Revision of Purchase Annuities. Up to the 1st November, 1898, the yearly annuities payable by 6,658 purchasers under the Act of 1885, have, pursuant to Section 23 of the Act of 1896, been reduced. The reduction represents on an average a little more than 10 per cent. on the annuity as previously payable in each case.

Guarantee Deposits. The Total amount of Guarantee Deposits lodged or retained under the Acts of 1885 and 1888 was £1,993,904 7s. 3d. Of this amount £15,878 19s. 6d. has been repaid to the parties entitled thereto, the tenant purchasers liable for the payment of the advances having repaid on account of principal money sums amounting thereto, and £287,056 1s. 1d. has, pursuant to the provisions of Section 25 of the Act of 1896, been paid out of Guarantee Deposits to the persons entitled, representing sums equal to the portions of the advances which was ascertained to have been repaid at the end of the first decade. £4,262 16s. 5d. has been applied in discharge of arrears of instalments declared pursuant to the provisions of the Act of 1885 to be "irrecoverable." Thus a balance of £1,686,706 10s. 3d. on the 31st March, 1899, remained as Guarantee Deposits. Of this amount, £264,413 4s. 4d. has been invested, on the application of the parties interested, in securities, as provided by the 10th section of the Act of 1887, and there remained at that date the sum of £1,422,293 5s. 11d., the greater portion of which was with the National Debt Commissioners, and the balance is in our hands.

## PROCEDURE UNDER THE PURCHASE OF LAND ACTS, 1891 AND 1896.

Applications received. During the year we have received 6,275 applications for advances from 523 estates for £1,925,989 in respect of sales where the purchase money agreed on was £1,945,314. These applications were received from the four provinces as follows:—

		£
Ulster,	3,119 for advances amounting to	445,574
Leinster,	1,514 " "	710,740
Connaught,	1,455 " "	375,425
Munster,	1,171 " "	494,140

Applications refused. Applications in 110 cases for £53,452 were refused for insufficiency of security and other reasons during the year.

Applications sanctioned and issued. We have provisionally sanctioned during the same period 6,211 applications for £1,891,788 and 5,480 Loans have been issued for £1,597,865.

Undertakings, under the 5th Section of the Purchase Act of 1885, were also received during the year from 3 tenants for advances amounting to £2,669 for the purchase of their holdings, forming portion of estates in the Court of the Land Judge.

Having purchased lands for resale, we sanctioned 207 loans in such cases for £60,921, and issued 261 for £63,462 to the tenants for the purchase of their holdings on the estates so bought by us. 118 undertakings for £31,418 were either rejected by us or our offer was refused by the Land Judge.

During the year to the 31st March last loans were also applied for, sanctioned, and issued by us in 359 cases, to the extent of £104,524, to enable tenants to purchase their holdings in cases in which the estates had been inspected and reported upon by us on the request of the Land Judge pursuant to the provisions of the 40th Section of the Land Act of 1896.

Three applications for advances amounting to £5,261 were received within the year from the Congested Districts Board, under the provisions of Section 43 of the Land Act of 1896, for the purpose of enabling that Board to purchase estates for the benefit of the Congested Districts. In each of the cases the amount applied for was advanced.

The total Advances under the Land Purchase Acts, 1891-1896, exclusive of those referred to in the foregoing paragraph, issued between 1st April, 1896, and 31st March, 1899, in each Province and for the whole of Ireland, were as follows:—

Province.	No. of Advances made.	Acres.			Rent.			Purchase Money.	Advances.
		£.	s.	d.	£.	s.	d.	£.	£.
Ulster, . . .	2,523	58,673	1	7	29,474	3	5	534,836	525,286
Leinster, . . .	1,414	54,382	0	37	33,140	8	4	605,079	576,055
Connaught, . . .	928	24,766	0	18	15,604	10	8	182,503	178,463
Munster, . . .	1,334	33,258	1	30	25,748	10	6	494,331	487,054
Whole of Ireland, . .	6,100	181,019	3	32	103,966	9	11	1,797,810	1,765,858

Since the passing of the Act of 1891 to the 31st March, 1899, we have received altogether 26,419 applications for £8,070,309; of these 1,937 for £653,691 have been refused for defects in the vendor's title, irregularity, insufficiency of security, and other causes. The total amount which has been provisionally sanctioned is £8,517,881 in respect of 21,019 applications, and of this amount we have issued during the same period 17,238 loans for £5,246,326, which, with advances in 6 cases for sums amounting to £19,171 made to the Congested Districts Board pursuant to Section 43 of the Land Act of 1896, brings the total amount of Guaranteed Land Stock issued to £5,365,497.

The proceedings towards the issue of £1,171,555, the difference between the amounts sanctioned and issued, are now in various stages of progress.

The periodical return required by the 33rd Section of the Act of 1891 has been prepared for presentation to Parliament, setting forth in the prescribed form complete particulars of every case in which an advance has been made during the year ended 31st March, 1899.

In the return which will be found in the Appendix, the total amount of the advances is stated for which applications were received during the year (and which appeared to us likely to be sanctioned) in respect of each county in Ireland for the purchase of holdings, the rental of which respectively exceeded, or did not exceed, a rental of £50.

We have released, on applications made pursuant to the provisions of Section 29 (2) of the Land Act of 1896, Guarantee Deposits amounting to £241,132:

In some instances we were unable to make the order sought, not being satisfied that sufficient reason existed for dispensing at present with the security afforded.

Since the passing of the Land Act of 1896 up to the 31st March, 1899, no application has been received under Section 36 of that Act for an advance for the purchase of a holding subject to a re-charge.

#### EVICTED TENANTS.

333 applications altogether were received since the passing of the Land Act of 1891, from evicted tenants, under Section 47 of that Act, requesting us to act as mediators with a view to the re-instatement of the tenant in the holding, or with a view to the tenant purchasing the same. 112 of such cases were refused by us, as the applications did not come within the provisions of the Section. 10 applications were withdrawn; objections were received from the landlords in 384 cases; while they consented, or the time for objection having expired in 27 cases. Of these 27 cases 22 were subsequently dismissed or refused, while

in 2 cases the terms as to purchase were consented to by the parties, and agreements for purchase were subsequently entered into and the sales have been completed; the remaining 3 cases were still pending on the 31st March last.

#### REDEMPTION OF RENT ACT.

126 Proceedings in purchase cases under Redemption of Rent Act. 1,399 applications under the Redemption of Rent Act have been received since the passing of that Act up to the 31st March, 1898, of which 118 have been received during the year. In 160 cases the landlord consented to the redemption of the rent. The total amount of the prices fixed in 104 cases, on 59 estates in which we made orders for redemption, was £118,316, in respect of a total rental of the holdings, as stated in the applications, of £8,100 18s. 3d., and the total advances sanctioned in respect of the prices so fixed was £105,499. In 40 cases the applications for redemption were refused, and 22 cases have not been adjudicated upon.

126 Proceedings in fair rent cases under Redemption of Rent Act. Out of the total number of applications received under this Act, the landlords did not consent to the redemption in 1,224 cases, and consequently the lessors or grantees were, as the Statute and Rules provide, deemed to have made applications as if they were lessholders under the Land Act of 1887 to have a judicial rent fixed; and in 9 cases where applications have been received the time to consent has not yet expired.

126 Number of judicial rents fixed. In 769 of such cases judicial rents have been fixed. [The former rental was £47,685, the judicial rental amounts to £35,564, showing an average reduction of 25·4 per cent.] 308 applications have been dismissed or struck out, and 58 have been withdrawn; thus 189 cases await hearing.

#### PROCEEDINGS UNDER THE LANDED ESTATES COURT ACT, SECTION 40, LAND LAW (IRELAND) ACT, 1896.

126 Proceedings under Sec. 40, Land Act, 1896. Up to the 31st March last 112 requests had been received from the Land Judge under the 40th Section of the Land Act of 1896, and reports by two of our body were made upon 83 of such requests, respecting the prices at, and the conditions under which the sales under the Land Purchase Acts of the holdings to the tenants on the estates referred to in the requests could properly be made. In 60 estates the Orders of the Land Judge directing offers to be made to the tenants on such estates were lodged with us, with the result that advances amounting to £122,541 were made to enable 421 tenants upon 35 estates to purchase their holdings under the provisions of the Section. In the remaining 25 estates where the Orders were so lodged, the proceedings were in various stages towards completion on the date stated.

#### GENERAL SUMMARY OF PROCEEDINGS UNDER PURCHASE ACTS.

126 General statement of total proceedings under Purchase Acts during period under review. In the foregoing paragraphs the general results have been given separately of our proceedings under the Land Purchase Acts of 1885 and 1891, but taking these under both Acts in the aggregate during the period between the 1st April, 1898, and 31st March, 1899, 6,838 applications in all for £3,057,406 were provisionally sanctioned; 6,161 loans, amounting to £1,766,924, were issued, which, with the sum of £5,261, advanced in 3 cases to the Congested Districts Board, brings the total amount issued in the year to £1,771,285, and 229 applications for £83,046 were rejected. The total amount issued in the year ended 31st March, 1898, was £833,662.

#### APPEALS IN LAND PURCHASE CASES.

126 Purchase appeals. 14 appeals against the decision of one Commissioner acting alone in carrying the Purchase Acts into effect were heard by the Judicial Commissioner and two other Commissioners, pursuant to the 29th Section of the Act of 1891, and the 41st Section of the Act of 1896, and 1 appeal in a case arising under the Redemption of Rent Act has similarly been disposed of during the year.

During the same period, 21 appeals, requisitions, or references involving questions of law only, were heard by the Judicial Commissioner sitting alone, but inasmuch as many of the questions of law which were formerly so disposed of by the Judicial Commissioner now arise before him when sitting as a Land Judge for the distribution, of the proceeds of sales under the Land Purchase Acts, pursuant to the 23rd Section of the Act of 1896, the amount of work of this character disposed of by him is not now represented by the figures here given.

Appeals on questions of law only. APPROPRIATE TABLE No.

#### PAYMENT OF PURCHASERS' INSTALLMENTS.

On the 1st November last, the total amount payable in respect of advances under the Act of 1885 for the half-year's interest and instalments which had then become due to us, including arrears amounting to £8,936 unpaid on that date, was £263,236 payable by 25,280 payers. Of this amount £100,418 had been paid on 31st March, 1899, by 24,883 payers, leaving £11,818 due by 1,297 purchasers. Of this sum £8,458 due by 1,132 persons is in respect of the half-year's instalment which accrued on the 1st November, 1898. The £11,818 in arrear on the 31st March has been reduced at the date of this report to £4,702 due by 433 purchasers.

Payment of Instalments Act, 1885 and 1891.

With regard to the payment of the instalments created under the Purchase of Land Act, 1891, the amount receivable on the 1st November last, from 14,374 payers was £34,102, of this £30,917 has been received, leaving £2,185 due by 288 payers.

The holdings of 96 purchasers who made default in payment of their instalments were advertised for sale during the year. In 64 of these cases the sales were withdrawn, the arrears having been paid; in 22 cases the holdings were sold to ordinary purchasers; and in 10 cases where there was no bidding, proceedings have been instituted by us to take up possession of the holdings pending resale. In 6 cases, the result of proceedings taken in previous years, the holdings are still in our hands, pending resale.

Cases in default.

#### LOCAL REGISTRATION OF TITLE (IRELAND) ACT, 1891.

Notices in the prescribed form were lodged with the Registering Authority for the purpose of having the titles of the tenant purchasers in 5,488 cases where the sales were completed immediately previously registered, &c., registered pursuant to the provisions of Section 23 (1) (b) of the above Act.

With reference to the registration of the titles of cases where the sales were completed before 1st January, 1892, during the year 324 statements and applications have been prepared and sent to the parties for verification, 247 have been lodged with the Local Registrars, and in 591 cases the rulings and directions issued during the year and previously have been complied with. In 435 cases Land Certificates have been issued. 304 cases have been abandoned owing to the negligence of the applicants.

During the period since 1893, when Treasury sanction was first obtained to apply for registration in such cases, 5,643 applications have been sent to parties for verification, 4,404 applications have been lodged with the Local Registrars, and 3,288 Land Certificates have been issued.

1,593 copies of Land Certificates were issued free of charge to the Registered Owners.

#### AGRICULTURAL DEPARTMENT.

The collection and publication of the prices of agricultural produce has been continued as heretofore.

A complete return of these prices from the year 1891 to 1898, with a series of diagrams attached thereto, has recently been issued as a Parliamentary Paper (C.—9,292, Session 1899), and it does not therefore appear necessary to re-emboldy in the Appendix to our present Report the information therein contained.

The Market Authorities of Sligo and Kilkenny have, in compliance with our requirements, provided improved accommodation for the weighing of live stock in accordance with the provisions of the Markets and Fairs (Weighing of Cattle) Acts, 1887-91.

The Superintendent of our Agricultural Department has continued to advise and assist in the carrying out of the schemes approved by the Congested Districts Board for Ireland, for the improvement of agriculture in the congested districts.

The leaflet upon the prevention of Potato Disease by spraying, issued in 1895, has recently been revised and re-issued in extended form. It is observed with satisfaction that the applications for copies from persons interested in agriculture throughout the country is very considerable.

A large number of useful and instructive leaflets on various subjects important to agriculturists, issued by the Board of Agriculture, have been supplied by this Department to persons residing in Ireland who applied for copies.

At the desire of His Excellency the Lord Lieutenant, certain spraying operations in the distressed districts of the Counties of Galway and Mayo were carried out by our Agricultural Department during the months of June, July, and August, 1898, at an expenditure of £3,868 8s. 9d., provided for conjointly by the Local Government Board, the Congested Districts Board for Ireland, and the West of Ireland Distress Committee (Manchester Fund); the object being to provide for the spraying of the produce of the potato seed distributed as a free grant by the Local Government Board and the West of Ireland Distress Committee in the counties named.

### RULES.

Copies of the Rules issued by us during the year are inserted in the Appendix to this Report.

### FINANCIAL.

Amount of Loans issued by Commission.

The total amount of Loans issued in cash by the Land Commission since the passing of the Land Law (Ireland) Act, 1881, under the Land Purchase Acts and the Tramways and Public Companies Acts, up to 31st March, 1899, has been £10,354,378. The total amount of principal repaid by the purchasing tenants has been £929,732 7s. 5d., the interest paid by them has been £2,715,304 18s. 3d.

Statement as to advances.

The detailed statement is given in the Appendix. It excludes advances made under the Purchase Acts, 1891-1896, as the advances under these Acts are made in Guaranteed Land Stock, and amount to the 31st March, 1899, to £5,365,407, as previously stated; advances under the Arrears Act, 1882, are also excluded.

### TEMPORALITIES OF LATE ESTABLISHED CHURCH.

Annual Revenues on Church Fund higher than annual income.

The property of the late Established Church which was vested in the Land Commission in 1881, produced during the year a total income of £515,445, including £81,353, the proceeds of sales of property and the redemption of income. Out of the same so received, and the balance in hand from previous year, payments have been made by us during the year amounting to £346,423.

The normal annual income receivable for the present financial year, estimated on the 1st April, 1899, is £455,935, the fixed charges on the Fund, including sinking funds to repay capital debt, with cost allowed for administration, taken on the same date, amount to £534,131, thus exceeding the income by £75,196. This excess, it may be anticipated, can be covered, and the indebtedness of the Fund further reduced, as in past years.

The sinking funds now borne by the Fund, amounting in the aggregate to about £269,756, for the payment of certain capital debts due to the National Debt Commissioners will, under existing arrangements, terminate in December, 1900. The operations of these sinking funds has been accelerated by the application of surplus revenue to the payment of the capital debt.

The interest on £950,000, borrowed from the National Debt Commissioners for the purposes of the Arrears of Rent Act, 1882, has now been reduced from 3½ to 2½, effecting a saving of £4,750 per annum.

By Section 25 (2) of the Land Act of 1896 we were authorized to apply the principles of the 25th Section for the purpose of reducing the annuities payable by glebe and other purchasers of land under the Church Act of 1869. In the majority of such cases, two or more decades had passed from the date the annuities commenced up to the date next after the passing of the Act. Consequently the reduction made in such annuities has been proportionately larger. 1,453 annuities have been already dealt with, the total amount of such former annuities was £34,855 13s. 9d. and these have been reduced to £22,877 8s. 7d.

The amount of arrears due to the Fund at the commencement of the financial year, 1898-9, has been reduced from £83,635 outstanding on 31st March, 1898, by £2,709, to £80,926.

In the Appendix will be found a statement of the particulars of the Revenue as it stands at present, and of the expenditure to be met.

By payments made since the property vested, the total liability, inclusive of charges imposed by the Legislature since 1881, has been reduced to £5,543,112; the annuity of £20,000 for the Royal University, which is not a capital charge, is not included.

The original debt of £9,000,000 for the purposes of the Church Act, and due to the Commissioners for the reduction of National Debt, has been reduced to £331,612. At the date of our last report the amount was £814,368.

Advances of Guaranteed Land Stock amounting to £25,387 have been made under the Purchase Act of 1891, up to the 31st March last, to 63 tenants of the Church property to enable them to purchase their holdings.

(1) The Estate stated in this Return are the Estates payable by the Tenants previous to the sale, except in a few cases where the Tenants agreed in purchase subject to a Head Rent, Covenants, Tithes, or Dringage Charges, or other entering previously payable by the Landlord, and in such cases the outgoing has been deducted from the Rent previously payable by the Tenants.

(2) In addition to the figures here given, some amounting to 428, 571 were not sold in August 1890, to provide funds for the purchase of 215 Estates of their holdings in the Land Judge's Court. In these cases the proceedings were in fact not carried out, having either fallen through or been reduced by the Land Judge, and particulars of same are not included in the above table.

(3) The sum of 448 has been deducted from the "Number" of Loans applied for in above Return owing to consolidation of two or more applications into one by Provisional Orders made during the period ended 31st March, 1889.

(a) The Loans stated in this Return are the Loans payable by the Tenants previous to the act, except in a few cases where the Tenants agreed to purchase subject to a Head Rent, Ground Rent, Tithe Rent, or Drainage Charge, or other outgoing previously payable by the Landlord, and in such cases the outgoing has been deducted from the Rent previously payable by the Tenants.

(b) As to 2 cases the Provisional Orders mentioning advances made prior to 31 March, 1885, were rescinded during the year ended 31 March, 1889, and particulars of these cases have therefore been deducted from this Return.

(c) The sum of £412 has been deducted from the Munster Loans in above Return, owing to cancellations of two or more applications into one by Provisional Orders made during the period ended 31st March, 1885.

Note.—Particulars of 6 applications received prior to 31st March, 1899, and withdrawn during the year, have been deducted in this Return.

The sum of 16 has been deducted from the Number of Loans in above Return, owing to cancellations of two or more applications into one by Provisional Orders made during the period ended 31st March, 1899.

Particulars of 16 Applications of Rent Covenants made by 1,000 Irish Tenants, under the provisions of the Act of 1896, applied 31st March, 1899, have been published by the University of Southampton Library Digitisation Unit.

PROCEEDINGS UNDER PURCHASE OF LAND (IRELAND) ACTS, 1891, 1896—  
TABLES 110 TO 126, INCLUSIVE—continued.

112.—RETURN showing, according to Provinces and Counties, the Number of Loans provisionally sanctioned, the Rental, the Total Purchase-money of the Holdings, and the Amount of Loans sanctioned, also the Number of Years' Purchase of Rent, during the year ended 31st March, 1899.

PROVINCE AND COUNTY.	No. of Loans.	Rent.	Amount of Purchase Money.	Amount of Loans sanctioned.	No. of Years' Purchase of Rent.

NOTE.—As in cases the Provisional Orders sanctioning advances made prior to 31st April, 1898, were evaded during the year ended 31st March, 1899, and certificates of these cases have, therefore, been debited from this Return.  
The sum of £1 has been debited from the number of Loans in above Return owing to Co-operations of two or more applications in one by Provisional Orders made during the period ended 31st March, 1898.  
Particulars of 10 Redemptions of Term Cases, which the prices have been fixed during the period ended 31st March, 1899, have been included in the Return.

## PROCEEDINGS UNDER PURCHASE OF LAND (IRELAND) ACTS, 1891, 1896.—

## TABLES 110 TO 126, INCLUSIVE—continued.

114.—RETURN showing, according to Provinces and Counties, the number of Loans issued, the number of Estates, and the Total Acreage and Rental of the Holdings in respect of which the Loans have been issued, also the Total Purchase-money and the Amount of Loans obtained from Land Commission, and the Number of Years' purchase of Rent, during the year ended 31st March, 1899.

PROVINCE AND COUNTY.	No. of Loans	No. of Estates	Area in Statute Measures.	Rent.	Purchase-money.	Amount of Loans.	No. of years' purchase of Rent.

NOTE.—In 34 cases the Provisional Orders sanctioning advances made prior to 1st April, 1839, were re-issued during the year ended 31st March, 1839, and particulars of these cases have, therefore, been deduced from this Return. The sum of 34 has been deducted from the Number of Loans in above Returns on the supposition of two or more applications in one by the same person made during the period ended 31st March, 1839.

## PROCEEDINGS UNDER PURCHASE OF LAND (IRELAND) ACTS, 1831, 1880.

## TABLES 110 TO 126, INCLUSIVE—continued.

120.—RETURN showing, according to Provinces and Counties, the Number of Loans issued for the purchase of Estates for re-sale to the Tenants under Section 5 of the Act of 1885, the Number of such Estates, and the Total Acreage and Rental of the Holdings in respect of which the Loans have been issued; also the Total Purchase-money and the Amount of Loans obtained from Land Commission, and the Number of Years' Purchase of Rent during the year ended 31st March, 1890.

PROVINCE AND COUNTY.	No. of Loans.	No. of Estates.	Acreage in Estate Returns.	Rental.	Purchase-money.	Amount of Loans.	No. of years' purchase of Rent.

# RULES ISSUED BY THE IRISH LAND COMMISSION DURING THE YEAR ENDED 31ST MARCH, 1899.

RULES, dated November 9, 1898, made by the LAND COMMISSION, under the LAND LAW (IRELAND) ACTS.

It is this day ordered that the following general Rules shall, from and after this date until further order, take effect, and be in force in the Land Commission in relation to proceedings under the Land Law Acts, and shall be read in conjunction with the Rules under these Acts, dated the 2nd day of January, 1897, so far as same are applicable.

I.—In cases where an Originating Notice of application by Landlord or Tenant to fix Fair Rent has been served, the Landlord and Tenant may agree that the application shall in the first instance, be referred to two Court Valuers to be named by the Land Commission, and directed by them to report to the Court—pursuant to the provisions of the Land Law (Ireland) Act, 1881—as to the Fair Rent. A consent for the purpose may be in Form No. 76.

II.—The Valuers shall visit the lands, after due notice to the parties; and having inspected and examined the holding, shall forward their Report to the Court, and shall state in the Report all such facts and circumstances as may be required for the purpose of enabling the Court to form a judgment as to the subject-matter of the Report.

III.—The amount of the Fair Rent, as estimated by the Valuers, shall be notified to the parties, who may obtain copies of the Report; and the Commissioners will make an order fixing the Fair Rent in accordance with the Valuers' Report, unless either party, within one month from the date of the above notification, serves a Notice (which may be in the Form No. 77) requiring the case to be heard; in which event the application shall be listed for hearing before the Commissioners themselves, when the Court will decide the case, having regard to the Report of the Valuers and the evidence offered by the parties; or the Commissioners may delegate the matter to a Sub-Commission if they think such a course advisable.

## FORMS REFERRED TO IN THE FOREGOING RULES.

### Form No. 76.

[Heading same as in Originating Notice.]

Consent of Landlord and Tenant that Originating Notice to fix Fair Rent be referred to two Valuers, to be named by the Land Commission; and that the Court may make an Order fixing the Fair Rent pursuant to the Report of the Valuers.

The ————\* having served an Originating Notice of application to have Fair Rent fixed, we, the Landlord and ————; hereby consent that the matter may be referred, in the first instance, to two Court Valuers, to be named by the Land Commission, and to be directed by them to report as to the Fair Rent; that the Land Commission may make an Order in accordance with the Report of the Valuers, unless either party requires the case to be heard in Court; in which event the case shall be listed for hearing in pursuance of the provisions of the Rules in this behalf, and that it shall not be necessary for the Court to ascertain and record in the form of a Schedule the particulars mentioned in Section 1 of the Land Law (Ireland) Act, 1896.

\* Landlord or Tenant (or both) if consented or known.

\*And we further agree

†And that the Court shall declare that the Lessee be deemed to be a Tenant of a present Tenancy in the holding.

Dated this                      day of                      189 .

Signature of Landlord or of Agent  
or Solicitor on his behalf,                      }

Signature of Tenant or of Solicitor  
on his behalf,                      }

[The Tenant's Signature must be witnessed by a Clergyman, by a Solicitor, by a Commissioner for taking Affidavits, or by a Poor Law Guardian, but the Witness need not be in any case a person in the employment of the Landlord.]

\* State Agreement as to lease and as to poor rates and county dues.  
† To be struck over if tenancy not tenanted.

## APPOINTMENT OF VALUERS.

The Land Commission hereby names Mr. \_\_\_\_\_ and Mr. \_\_\_\_\_ to act as Valuers in this matter, and directs them to report upon the Fair Rent of the above holding.

Dated this \_\_\_\_\_ day of \_\_\_\_\_ 189 .

By Order,

Registrar.

Form No. 77.

[Heading same as in Originating Notice.]

I, the \_\_\_\_\_\* hereby require the application to fix a Fair Rent in this case to be heard.

To \_\_\_\_\_

[The opposite party, whether Landlord or Tenant.]

And the Secretary to the Land Commission.

## PROVISIONAL RULE.

SUPPLEMENTAL TO THE RULES OF 9TH NOVEMBER, 1898.

Dated this 27th day of January, 1899.

In cases where an Originating Notice has not yet been served, and the Landlord and Tenant are desirous of having the Fair Rent of a holding fixed by the Land Commission, and have agreed that the matter shall, in the first instance, be referred to two Court Valuers to be named by the Land Commission, and directed by them to report to the Court in accordance with the above Rules, the Landlord and Tenant may serve upon the Land Commission an Originating Notice in Form No. 78 or No. 79, according as the Fair Rent is to be fixed for a first or second statutory term.

[This form requires to be stamped with a shilling impressed stamp and when executed must be lodged with the Land Commission.]

## SCHEDULE OF IMPROVEMENTS CLAIMED.

## APPOINTMENT OF VALUERS.

The Land Commission hereby names Mr.                      and Mr.                      to act as Valuers in this matter, and directs them to report upon the Fair Rent of the above Holding.

Dated this    day of    18  

By Order

Registrar.

Rules Supplemental to No. 120 of the Rules of the Irish Land Commission, made in relation to proceedings under the Land Law Acts, and dated 2nd January, 1897.

Dated this 13th day of March, 1899.

It is hereby Ordered that the following Rules shall come into operation and effect on the 1st day of April, 1899, and shall apply to Originating Notices served on or after that day.

I. Where an Originating Notice to fix a Fair Rent is served by a Tenant in the case of a holding, the Tenement Valuation of which is under £10, such Originating Notice shall state in a Schedule endorsed thereon, the amount, if any, claimed by the Tenant for drains in respect of which evidence is intended to be produced.

II.—Where an Originating Notice to fix a Fair Rent is served by a Landlord, such Originating Notice shall state in a Schedule endorsed thereon, the particulars of any improvements or contributions to improvements in respect of which evidence is intended to be produced, or which are intended to be relied on by the Landlord as having been made by him or his predecessors in title, with the dates at which the same were made according to the best of his knowledge and belief.

III.—Where an Originating Notice to fix a Fair Rent is served by a Tenant, the Landlord shall within one month from the service on him of such notice, serve on the Tenant similar particulars in writing of such improvements or contributions as aforesaid, and shall within the like period transmit a copy or copies (according to the Court selected) of such particulars to the Land Commission, or the Clerk of the Peace, as the case may be.

## RULES.

### *Assistant Commissioners*

Dated this 13th day of March, 1899.

It is hereby Ordered that Number 15 of the General Rules dated the 2nd day of January, 1897, shall as from this date be rescinded, and that the following Rules shall have effect:—

Assistant Commissioners at present in office shall be eligible for re-appointment on the expiration of their present term of office.

The following persons shall be competent to be appointed for the first time to the office of Assistant Commissioners:—

Practising Barristers and Solicitors of not less than six years' standing.

Persons possessing the following qualifications:—

(a.) A practical acquaintance with the value of land in Ireland, and knowledge of the methods of land valuation;

(b.) Knowledge of the principles of Land Surveying and Mapping, including skill in computing areas from Maps and Plans;

(c.) General educational fitness; and

(d.) Physical health, and capacity for active outdoor work in connection with land valuation.

And it is further Ordered that Temporary Assistant Commissioners appointed by His Excellency the Lord Lieutenant after the date hereof and before the 31st day of March, 1903, shall hold office, subject to the provisions of the "Land Law (Ireland) Act, 1881," up to and including the 31st day of March, 1903, save that where any such Temporary Assistant Commissioner has attained the age of 55 years he shall not be appointed or re-appointed for a continuous period greater than one year.

## LAND LAW ACTS.

### PROVISIONAL RULES.

Dated this 23rd day of March, 1899.

It is hereby ordered that the following Rules shall from and after this date, and until further Order, take effect and be in force in relation to all proceedings under the Land Law Acts.

I. Where in connection with any proceedings under and in pursuance of the Land Law Acts, the parties are by the General Rules of the Irish Land Commission, dated the 2nd day of January, 1897, and the Forms thereunder, as well as by any Rules incorporated therewith, required, in setting forth the particulars of a holding, to state the name of the Poor Law Union within which such holding is situate, they shall henceforth, in lieu thereof, specify the name of the Rural, or Urban, or partly Rural and partly Urban District, within the meaning of the Local Government (Ireland) Act, 1898, within which the holding which is the subject of the proceedings is situate, and all Forms issued under the Rules in question shall from this date be deemed to stand amended accordingly, and after the date hereof no notice shall be received (except by leave of the Court) unless the particulars now required to be furnished are supplied.

II. Where an application is made to the Court to fix a Fair Rent of a Holding, such application shall be accompanied by an Extract from the Valuation Books, showing for the year referred to in the Local Government (Ireland) Act, 1898, as the Standard Financial Year, the valuation of the agricultural land, and other hereditaments comprised in the holding. Such extract to be certified by the proper officer of the Valuation Office in Dublin.

III. Urban and Rural District Councils shall be qualified to witness the signature of a tenant, as well as the other persons referred to in No. 85 of the General Rules of the 2nd January, 1897.

IV. Where a Fair Rent is fixed by the Court after the day upon which the Local Government (Ireland) Act, 1898, comes into operation, and which is referred to in that Act as the Appointed Day, the Schedule under Section 1 of the Land Law (Ireland) Act, 1894, shall be in Form No. 38, 39a, or 39b, appended hereto, according as the holding is situate in a Rural District, or partly in a Rural and partly in an Urban District, or in an Urban District, within the meaning of the Local Government (Ireland) Act, 1898, respectively, and the Form No. 39 prescribed by No. 133 of the General Rules of the 2nd January, 1897, shall cease to be applicable from that day.

V. Number 89 of the Rules of the 2nd January, 1897, and so much of Numbers 85 and 84 of these Rules as refer to the certified extract from the Valuation Books, are hereby rescinded, save in cases where the Order appealed against, bears date on or before the day referred to in the foregoing Rule as the Appointed Day.

TABLE 139.—PAMPHLET ISSUED BY IRISH LAND COMMISSION ON THE PREVENTION OF POTATO DISEASE.

## IRISH LAND COMMISSION.

(AGRICULTURAL DEPARTMENT.)

*Prevention of Potato Disease (Phytophthora infestans).*

The experience of those in Ireland who during recent years have practised spraying for the prevention of potato disease (*Phytophthora infestans*) has proved that in districts in which that disease is prevalent the timely and proper application of a correctly prepared Bordeaux or other suitable mixture to the foliage of the potato plant, by means of an efficient spraying machine, though not altogether preventive of the disease, usually has a marked effect in lessening the loss of yield and quality which is caused thereby, and under such circumstances the value of the increased yield due to spraying generally exceeds considerably the cost of application.

The mixture most frequently used in the United Kingdom is that known as Bordeaux mixture, consisting of copper sulphate, lime, and water: this mixture is also the one in most general use in France; but another mixture, called Burgundy mixture—consisting of copper sulphate, soda, and water—has of late found much favour in that country.

The following points with respect to the relative merits of copper sulphate and lime and copper sulphate and soda mixtures should be noted:—

Experiments conducted in France in 1898 show that copper sulphate and soda mixtures, when applied immediately after their preparation, have a power of adhering to the leaves very considerably in excess of copper sulphate and lime mixtures similarly applied, but that copper sulphate and soda mixtures deteriorate rapidly after preparation, so much so, that a copper sulphate and soda mixture which is not applied until twenty-four hours after its preparation will have lost almost all power of adhesion, whereas a copper sulphate and lime mixture loses but slightly its adhesive properties when held over for a similar period before application. Copper sulphate and soda mixtures must, therefore, be applied immediately after their preparation, whilst copper sulphate and lime mixtures may be held over for a day or two without any serious loss occurring in their adhesive properties, but they also deteriorate slowly.

The copper precipitate in a copper sulphate and lime mixture settles down when the mixture is allowed to stand; moreover, some of the lime is always present as a fine gritty deposit. The copper sulphate and soda mixture, on the other hand, is gelatinous in nature, and the precipitate is lighter, and consequently remains a longer time in suspension, while it is quite free from gritty matter. The copper sulphate and soda mixture also runs more freely through the spraying nozzles, while the gritty deposit in the copper sulphate and lime mixture has a tendency to choke.

Unslaked lime of good quality is essential for the preparation of copper sulphate and lime mixture: if impure or air-slaked lime is used, the mixture will be thereby deteriorated.

When good lime is readily procurable, it is very much cheaper to use than soda, but when good freshly burned lime cannot readily be procured, it may be more expensive to use than soda, as the requisite quantity of soda may be purchased in advance and kept over any length of time without deterioration.

Several other mixtures made with arsenic, vermillion, soap, &c., have been used for the prevention of potato disease with more or less satisfactory results, but, as those made with copper sulphate and lime or soda have a better established reputation they are recommended for use.

The following detailed instructions apply to the preparation of such mixtures:—

## PREPARATION OF COPPER SULPHATE AND LIME (BORDEAUX) MIXTURE.

The copper sulphate and lime (Bordeaux) mixtures, which experience has shown to be generally suitable for use in Ireland, are composed as follows, namely:—

2 lbs. sulphate of copper of 98 per cent. purity; About 1 lb. of well burned unslaked lime of very good quality; 10 gallons (100 lbs.) of water.	} Commonly called a 2 per cent. mixture.
Or 1½ lbs. sulphate of copper of 98 per cent. purity; About ½ lb. of well burned unslaked lime of very good quality; 10 gallons (100 lbs.) of water.	
	} Commonly called a 1½ per cent. mixture.

To prepare 40 gallons of a 2 per cent. mixture have in readiness:—

- (1.) A wooden barrel or tub of at least 40 gallons capacity: an empty oil barrel with the head off is very suitable.
- (2.) A smaller vessel of about 5 gallons capacity, or in lieu thereof two buckets each of 2½ to 3 gallons capacity.
- (3.) A light bucket of 2 to 3 gallons capacity.
- (4.) A jug or tin or other convenient vessel, to be used for transferring the mixture to the spraying machines.
- (5.) A piece of coarse sacking, canvas, or other cheap strong material of open texture, and clean.
- (6.) A stick about 3 ft. long for stirring the mixture.
- (7.) A fine sieve or strainer, or clean piece of sacking for use as a strainer.
- (8.) 8 lbs. of copper sulphate of 98 per cent. purity.
- (9.) 4 lbs. of well-burnt unslaked lime, if the lime is not very good, a little more will be required.
- (10.) 40 gallons (400 lbs.) of cold water.
- (11.) A packet of blue litmus papers, as sold by druggists for twopence.

The tubs and bucket should be clean.

Put 35 gallons of very clean cold water in the large wooden tub or barrel, and 5 gallons of cold water into the smaller vessel. The water should, if necessary, be strained through the sieve, to free it from small particles which might choke the spraying nozzle. If there is no available means of correctly measuring the quantity of water required, use an empty petroleum barrel with the head off, as above suggested: the petroleum barrel will hold about 41 to 43 gallons of water when full: first fill the barrel with water, and then withdraw about 4 or 5 gallons for preparing the milk of lime.

Put 8 lbs. of copper sulphate into the place of sacking, which should then be suspended in the vessel containing 35 gallons of water in such a manner that the copper sulphate shall hang near the surface of the water, but yet completely immersed therein: let it remain thus until all the copper sulphate is dissolved; the heavy solution, as it forms, will fall to the bottom, and fresh water will come in contact with the crystals; hence, if this method be employed, the liquid should not be stirred until the crystals have dissolved.

If the copper sulphate is in crystals, it will require a few hours to dissolve; to hasten dissolution, the crystals may be finely broken before being set to dissolve; in doing so care should be taken not to mix dirt with the copper sulphate. Finely powdered copper sulphate dissolves in about fifteen minutes; it generally costs a little more than copper sulphate crystals: those who wish to exercise economy should therefore buy crystals.

Put 4 lbs. of freshly burned slaked lime into the empty bucket, and on it sprinkle a little water, but not more than what the lime will absorb; the moisture will cause the lime, if good, to swell and break down into powder, developing considerable heat. When the lime is thus "slaked," add enough water from the 5-gallon vessel to produce a thoroughly cool, thin, milk of lime, which should be well stirred. If the lime is impure, or badly burnt, or partially air-slaked, it will be necessary to use more lime than the quantity above stated, and the Bordeaux mixture produced will be more or less deteriorated thereby. Air-slaked lime should not be used. An excess of lime tends to choke the spraying nozzle, and lessens the efficacy of the mixture.

When the copper sulphate has been completely dissolved, stir the solution well with a stick, and then pour the milk of lime slowly into the copper sulphate solution, a fine sieve or strainer being interposed to hold back any lumps or particles which might otherwise pass into the solution, and afterwards tend to choke the spraying nozzle; stir continuously while mixing, and then continue stirring for five minutes; the mixture should then appear azure blue in colour.

The lime water should be quite cool before it is added to the copper sulphate solution, and it should always be poured into the copper sulphate solution; the inverse practice should not be adopted.

Now dip a piece of litmus test paper in the mixture, to ascertain if it is free from acidity. If the test paper remains blue the mixture is fit for use, but if the paper turns to a reddish shade the mixture is too acid, and it is necessary to make some more milk of lime and add a little to the mixture, stirring well as before, and repeating this process until the litmus paper shows that all acidity has disappeared. The mixture may then be used, care being taken to stir it well before withdrawing any for use.

The copper sulphate solution may be prepared any length of time before it is required for use, but the lime water should be freshly prepared, and mixed with the copper sulphate solution in such quantity only as to provide sufficient Bordeaux mixture for application the same day.

The copper sulphate solution must not be allowed to come in contact with iron or zinc vessels, because it would rapidly corrode them, and the solution would be thereby damaged. Iron vessels may be used for transferring the prepared Bordeaux mixture to the spraying machines, but it will much injure them.

The copper sulphate crystals may be dissolved in a small quantity of hot water, but the copper sulphate solution should be thoroughly cooled by the addition of cold water before the milk of lime is added to it.

#### PREPARATION OF COPPER SULPHATE AND SODA (BURGUNDY) MIXTURE.

The copper sulphate and soda (Burgundy) mixtures recommended are composed as follows:—

2 lbs. of copper sulphate of 98 per cent purity;	} Called a 2 per cent mixture.
2½ lbs. of pure soda crystals (known also as crystal- lised carbonate of soda, and as washing soda);	
10 gallons (160 lbs.) of water.	

And

1½ lbs. of copper sulphate;	} Called a 1½ per cent mixture.
1 lb. 14 oz. of soda crystals;	
10 gallons (160 lbs.) of water.	

Any quantity may be prepared, the copper sulphate and soda being used in the proportions stated above.

To prepare 40 gallons of a 2 per cent. mixture, dissolve 8 lbs. of copper sulphate in 35 gallons of cold water in the manner already described for Bordeaux mixture; then dissolve 10 lbs. of soda crystals in 5 gallons of water. The soda solution should be of such strength that one part of soda solution poured into and mixed with seven parts of the copper solution will produce a mixture free from acidity. Mix a small quantity of the solutions in the proportions stated—thus, measure off seven cups of the copper solution, into which pour one cup of the soda solution, and test the Burgundy mixture thus prepared with blue litmus paper; if any acidity is present, the soda solution must be strengthened by adding soda thereto until a mixture of the two solutions in the proportions stated is free from acidity. Note accurately the total quantity of soda required to produce the desired result, and use the same proportions of copper sulphate and soda in preparing further supplies.

The solutions of copper sulphate and soda respectively, may be prepared separately and kept in stock for any length of time without deteriorating, but the soda solution should not be added to the copper sulphate solution until immediately before the mixture thereby produced is poured into the spraying machine for use, when the quantity required for immediate use may be prepared by pouring one part of the soda stock solution into seven parts of the copper sulphate stock solution; the mixture thus obtained should be well stirred before

it is put into the spraying machine. Care should be taken to stir each stock solution thoroughly before withdrawing any portion for use, and always to pour the soda solution into the copper sulphate solution; not the reverse way. If the stock solutions have been prepared from pure and clear materials, the mixture should contain no gritty matter; but if it is dirty, it should be passed through the strainer.

Fifty-eight per cent. soda ash (known also as anhydrous carbonate of soda) may be used instead of soda crystals. About 3 lb. of soda ash will be necessary for each pound of copper sulphate used. Soda ash at present costs about 8s. per cwt., as compared with 4s. per cwt. for soda crystals, but as 1 lb. of soda ash is equivalent in strength to about 2½ lbs. of soda crystals, at present prices the former is the more economical of the two for use. If any difficulty is experienced in dissolving the soda ash or soda crystals, either may be dissolved in hot water; but the soda solution should be perfectly cool before it is poured into the copper sulphate solution.

#### OTHER PREPARATIONS.

A number of special powders and compositions for the preparation of Bordeaux, Burgundy, or other mixtures considered suitable for the prevention of Potato Disease, are offered for sale to the public under various names.

Mixtures made with such preparations may be quite as efficacious as those prepared with copper sulphate and lime or soda as above described, and by their use some trouble is saved; but in this country the most satisfactory results appear generally to have been obtained by those who have used mixtures made in accordance with the instructions above given.

As a rule, the cost per gallon of a Bordeaux mixture made with such special preparations is considerably greater than that of a mixture of equal strength made as above described from copper sulphate and lime.

Those who prefer to use special powders or compositions sold for the preparation of Bordeaux or Burgundy mixtures, should purchase the same subject to a guarantee that such composition consists of a chemical or mechanical mixture of copper sulphate and lime or soda, and that a spraying mixture prepared therewith in accordance with the instructions supplied by the vendor shall contain copper corresponding to a stated percentage of crystallised copper sulphate, together with the requisite quantity of lime or other alkali, and that it will not contain an undue excess of acid or alkali or other substance injurious to the potato plant.

Bordeaux mixtures made with such special preparations frequently precipitate more rapidly than those prepared with copper sulphate and lime, and in some cases the precipitation is very rapid. It is, therefore, very necessary when special compositions are used to take care that the mixture is frequently and thoroughly agitated during the period of its application, so as to ensure that it shall be of uniform strength as ejected from the spraying nozzle.

It is advisable that mixtures made with special compositions should be tested for acidity before application. A slight amount of acidity is not harmful, but considerable damage has been caused to plants by the application of a mixture containing an excess of acidity.

#### APPLICATION.

The spraying mixture should be applied by one of the spraying machines specially constructed for the purpose. The machines constructed to deliver by several nozzles, and to be drawn by a horse, will frequently be considered the most suitable for use on large areas of crop; but when the area of crop to be dealt with is small, as is usually the case in Ireland, knapsack spraying machines will be found more suitable. The latter are also the most suitable for use when the foliage is very long and rank at the time of spraying, or when the crop is grown in lay beds.

The first dressing should be applied before signs of disease are observed on the crop. It is, therefore, desirable that the first dressing should take place a few days before the period at which disease usually makes its first appearance in the locality. The period of application of the first dressing would, therefore, vary from the end of May in early districts to the middle of July in late districts.

The best results will be obtained by dressing the crop before disease is observed, but considerable benefit will generally accrue if the dressing is applied immediately after the first traces of disease have been observed; little, if any, benefit will be derived by applying the dressing after the disease is observed to have spread pretty generally over the foliage.

In districts, such as south-west Cork, in which the disease usually appears early in June, a second spraying should be given about three weeks after the first application, as in that interval a large quantity of foliage will have developed and a considerable portion of the original dressing may possibly have been washed off by rain. In such districts a third dressing may sometimes be advisable, especially if the weather is very wet.

Throughout Ireland generally it will be found advisable to apply a second dressing about three to four weeks after the first, but in late districts, such as mid-Ulster, if the crop is well developed, one thoroughly good dressing will often prove sufficient, especially if the ensuing weather is fairly dry.

After having been thoroughly stirred, the requisite quantity of the prepared mixture should be poured into the spraying machine, a sieve being interposed to catch any small particles which might clog the spraying nozzles. The mixture should then be applied to the foliage of the crop, the spraying machine being operated so as to cause it to issue from the spraying nozzle in a fine mist-like spray, which should be directed so that, as possible, the under and upper surfaces of the foliage may be covered with the spray, which should stay on the foliage in fine separate particles. The spray should not be applied so heavily as to cause the particles of mixture deposited on foliage to coalesce and consequently to drip off, though this will always take place to some extent.

The experiments conducted by the Irish Land Commission indicate that the best results are obtained when the spray can be effectively applied from underneath upwards. The under surface of the leaves on which the disease is first generated is thereby dressed, and a considerable amount of spray will also fall on the upper surface of the leaves. It is not, however, always possible to spray effectively from underneath, especially when the foliage is very rank, and very good results are obtained by those who spray from the top only.

The mixture hitherto most generally used in Ireland is that known as Bordeaux mixture; the 2 per cent. Bordeaux mixture is considered to be the most suitable for general use, especially when the foliage is very much developed, but the  $1\frac{1}{2}$  per cent. mixture is suitable for early application, especially to tender-leaved varieties.

The best results will be obtained by spraying during dry weather: if rain should fall heavily soon after spraying, examine the foliage and if the mixture has been washed off to a considerable extent spray again: spraying should be suspended while the foliage is wet.

The spraying mixture should be well stirred with a stick on each occasion before drawing a fresh supply for the spraying machine.

If the foliage is very rank, the operator should walk backwards, to avoid brushing the moisture off the sprayed foliage.

The quantity of the mixture to be applied per acre is approximately as follows:—

For an average crop of champions with fully developed foliage. . .	{ About 120 gallons per statute acre, equal to 194 gallons per Irish acre.
For a crop of champions with more than the average amount of foliage. . . . .	{ About 180 gallons per statute acre, equal to 288 gallons per Irish acre.
For a crop of champions with a small development of foliage. . .	{ About 80 gallons per statute acre, equal to 130 gallons per Irish acre.

#### GENERAL REMARKS.

Double nozzles are preferred by some, especially for use between drills; but they are not recommended for use with knapsack sprayers, as, except when they are worked by a very careful operator, a good deal of the spray is likely to be wasted; nor are double nozzles suitable for work when the foliage is very heavy, or when the crop is in lax beds.

The external bearings of the spraying machine should be frequently lubricated, but care should be taken not to let any of the oil get upon the rubber parts of the machines; the machines should be washed out with water after use, and thoroughly cleaned before being put away for the winter.

If a metal or floor sack is used for holding the copper sulphate crystals while they are dissolving, the sack should first be thoroughly washed to remove all traces of meal or flour, which would be liable to choke the tubes and nozzles of the spraying machines.

If a spraying machine is not available, the spraying mixture may be applied by means of a brush, such as a whitewashing or house-painter's brush, or a leather whisk or broom; but this system of application is not recommended, as it is more wasteful and less effective than that by means of spraying machines.

Copper sulphate is poisonous; therefore the vessels in which copper sulphate mixtures have been prepared should not afterwards be used for holding food or water intended for consumption.

The copper sulphate used should be of not less than 98 per cent. purity. Impure copper sulphate often contains a considerable proportion of sulphate of iron, which diminishes the action of the copper sulphate, and makes the mixture a dirty green in colour. The present retail price of copper sulphate crystals of 98 per cent. purity, is about 40s. per cwt.; their value has recently risen considerably.

A gallon of water weighs 10 lbs.

The quantity of mixture which it is necessary to apply per acre varies in proportion to the amount of foliage which is developed.

About ten gallons per hour may be distributed with a knapsack spraying machine, fitted with one Rley spraying nozzle, and kept pretty steadily at work.

The date at which spraying should be commenced in any district is dependent upon the time at which disease may be expected to appear in that district: it does not depend upon the size or age of the plants to be protected, provided that sufficient foliage has developed to render spraying possible. As the disease usually appears early in June in some districts, and not until late in July in others, it is manifest that the period of spraying does not depend upon the age or development of the plant.

Spraying the foliage of the potato plant with a copper sulphate and lime or soda mixture does not in any way injuriously affect the potato tubers, nor does it render them in any way unsuitable for use as food for human beings; it tends to cause the plant to live longer, and to improve the yield both as to quantity and quality.

In some districts, especially in the western portions of Donegal, Galway, and Mayo the potato crop is liable to serious injury from the disease called "Yellow Blight" (*Helotyria*, indicated by the stem and foliage assuming a yellow hue, which gradually turns to a deeper orange shade, also, from the "Stalk Disease" (*Peridermium*), which causes the stalks to rot and break down just above the ground level, and which is indicated by the small dark coloured grains (*sclerotia*) found in the hollowed-out stems. *Sclerotia* of a much smaller, more irregular form are also to be found within and on the surface of the stems in the later stage of the "Yellow Blight" disease. It is possible that spraying, especially if practised early, may assist in protecting the potato plant from attack by these diseases. They are very fully described in a leaflet E.O. 860 issued by the National Education Office, in which the following methods are recommended for the purpose of stamping out the "Peridermium" disease, here called "stalk" disease:—

1. To carefully watch the progress of the crop of potatoes, and when the disease makes its appearance the plants that are affected should be pulled up before the *sclerotia* are matured. These affected plants should be destroyed by burning them, as it may be possible that the *sclerotia* would come to the state of maturity in the stalks even after the stalks had been pulled.

3. By not growing a crop of potatoes on land that has in the year previously carried a crop of potatoes; indeed, it would be advisable to allow several years to intervene between potato crops in districts that are subject to this disease.

It is recommended that the stalks and foliage of potato plants which have been affected by any of the diseases mentioned in this leaflet should not be left to rot upon the ground, but that they should be burned as early as possible, as they contain many of the germs by which such diseases are propagated.

M. Maugin, Professor of the "Ecole Louis le Grand," Paris, who is a recognised authority upon the treatment of fungoid diseases, recommends that potatoes intended for seed, which have been grown in a field affected by potato disease, should be treated as follows:—

Immediately after the potatoes have been dug those intended for seed should be steeped for one hour in wooden bowls containing a 0.5 per cent. solution of copper sulphate (8 ounces of copper sulphate dissolved in 10 gallons of water). They should then be washed in the solution, and afterwards placed in wicker baskets to let the liquor run off, after which they should be dried and stored.

The practice of steeping seed potatoes in a Bordeaux mixture has recently been advocated, such a course would, doubtless, be effective in killing any surface disease-spores, but no satisfactory evidence has been produced in support of the theory that plants grown from seed thus treated will thereby be rendered as little liable to succumb to attacks from without of the potato disease as if they had been sprayed. It is observed that the French method of treatment above referred to provides for killing all surface-spores before the seed is pitted for winter, thereby tending to reduce the risk of disease spreading in the pit, and the further risk of injuring the earliest sprouting eyes in spring steeping.

The Irish Land Commissioners desire to express their obligations to Professor Thomas Johnson, D.Sc., of the Department of Science and Art; and to Mr. E. J. Mose, F.I.C., Analytical Chemist to the Royal Dublin Society, for the advice and assistance which they have kindly afforded towards the preparation of this paper.

By Order,

JOHN H. FRANKS,

Secretary.

24, UPPER MERRION-STREET,

DUBLIN, May, 1899.

*Copies of this paper may be obtained, free of charge on application to the Secretary, Irish Land Commission (Agricultural Department) Dublin.*

COPY.

CHIEF SECRETARY'S OFFICE,

DUBLIN CASTLE,

17th July, 1899.

SIR,

I have to acknowledge the receipt of your letter of this date, forwarding, for submission to His Excellency the Lord Lieutenant, the Report of the Irish Land Commissioners for the period from the 1st April, 1898, to 31st March, 1899.

I am,

Sir,

Your obedient servant,

(Signed),

D. HARREL.

The Secretary,

Land Commission,

24, Upper Merrion-street.
